## Don't have disinfectant wipes at home?

READ FIRST

### Bleach [ Sodium Hypochlorite ] Solution

Use undiluted household bleach [ 5.25% or ~50,000 ppm ] when making the solution in the chart below.

When making bleach solutions, add bleach to water, do not add water to bleach.

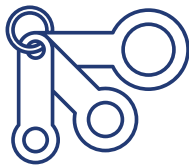

Store bleach solution in closed containers away from heat and light.

Bleach solutions should be properly labelled.

THEN MIX

### 1,000 ppm [ 1:50, 0.1% ]

Mix 20 ml [ 4 teaspoons ] of bleach with ~1L [ 4 cups ] of water

20ml  
[ 4 teaspoons ]  
of bleach

with ~1L  
[ 4 cups ]  
of water

Store in a closed  
and labelled  
container away  
from heat and light

THEN CLEAN

Using a microfibre cloth or reusable cloth, wipe down surfaces and let air dry.
